Alexa for Shopping is now live in the UK

On the Amazon Shopping app and website.

Free for any signed-in customer. No Prime membership. No Echo device.

Rufus brought the product expertise. Alexa+ brings personal context from Amazon.co.uk and Alexa+ conversations.

About Amazon UK, “Meet Alexa for Shopping”, 11 Nov 2026.

LIVE TODAY

Six things it does now

AI OVERVIEWS

At the top of search results and on product pages.

COMPARISONS

Side by side: features, prices and review highlights.

PRICE HISTORY

Up to a full year: 30, 60 or 365 days.

SHOPPING GUIDES

Personalised, for bigger buys like a TV or a laptop.

BASKET

“Add my usual cleaning products” builds it from past orders.

YOUR PROFILE

View, update or remove what it knows: family, pets, dietary needs.

COMING NEXT

Not live yet: price automation

PRICE ALERTS

Set a target price and get notified when it drops to it.

SCHEDULED ACTIONS

Restock essentials monthly, or “add this sunscreen to my basket if the price drops below £10”.

MORE PERSONAL

Better memory of preferences and conversations across devices.

Amazon lists these under “What’s coming next”, in the weeks and months ahead. They were not live on 11 November.

What this launch is not

TEXT SHOPPING

US only

The 6 Nov text launch is invite-only in the US. No UK date announced.

ALEXA+ IN THE UK

Early Access

Still Early Access. Alexa for Shopping works on its own in the app and on the website.

The UK post mentions no text messages, no Echo Show and no ads.

About Amazon UK, 11 Nov 2026 and 19 Mar 2026; Amazon US text launch, 6 Nov 2026.

MY TAKE

The discovery layer changed again

1

It writes the summary first

The overview your shopper reads before any product.

2

It compares you side by side

Features, prices and review highlights.

3

It shows your price history

A full year, before they decide.

Listing text, attributes, reviews and clean price data are the GEO work inside Amazon.

My reading of the announcement, not an Amazon statement.

Optimise what it reads, measure what it shows

Amazon does not publish how Alexa for Shopping ranks products.

1

Write for the summary

State size, fit, compatibility and who it is for, in UK English.

2

Complete the facts it compares

Every attribute that applies, plus review problems answered in the listing.

3

Ask it yourself, over days

Run your buyers' questions on Amazon.co.uk and note who it names.
